

## Coil Cleaning and Coil Change

1. For best results, you are going to want to clean the coil of debris before loading up again.
2. Use the included metal tool to brush the walls and ceramic pad.

NOTE: Do not put the metal tool underneath the ceramic plate. If you detach your ceramic plate, the coil will not function properly and you will need to purchase a new coil.

6

## Charging

1. A red light will appear to notify that the battery is charging.
2. The red light will turn off once the battery is fully charged.

NOTE: If there are any concerns, remove the power cord from the Trek 2.0 and switch off the power. The battery will flash 10 times and automatically shut off when the battery power is low.

**Warning:** The Trek 2.0 can not be used while charging. The battery can pose danger if used while charging. Do not leave the Trek 2.0 unattended while charging. **KEEP OUT OF THE REACH OF CHILDREN AND/OR UNQUALIFIED PERSONS.**

7

## Troubleshooting

You can check the wall charger by trying another wall adapter and/or micro USB cord.

Regular maintenance and cleaning of your Trek 2.0 is highly recommended.

If you lose any part of your Trek 2.0 vaporizer or need replacement coils, visit the shop where you purchased the Trek 2.0 or check out Randys.com.

To clean your Trek 2.0 mouthpiece, you should use our Randy's Orange Label Citrus Cleaner.

Make sure to use a finely ground legal dry herb in your Trek 2.0.

## Kit Includes

2

## Electronic Herb Vaporization

The longer you hold the button the hotter the coil gets. It heats to 385°F in about 4 seconds, which is great for vapor. The Trek 2.0 can get as hot as 750°F in about 9 seconds, which will combust your legal dry herb. Be sure to not hold the button for longer than 4 seconds when vaporizing.

### Randy's Guide for Vaporization:

1. Load legal dry herb (to preference), put the glass back on.
2. Turn the device on (5 clicks).
3. Press the button for 3 - 4 seconds (cycle as needed).
4. Release the button, and begin to inhale. If vaping doesn't begin, repeat step 3 and step 4.

3

## Electronic Herb Combustion

To combust your legal dry herb follow the direction for vaporization on the previous page, but with increased button holding durations. 10 seconds max hold time.

### Randy's Guide for Maximum Combustion:

1. Load legal dry herb (to preference), do not put the glass back on yet.
2. Turn the device on (5 clicks).
3. Press the button until you begin to see a small amount of vapor/ smoke begin to sit on top of the legal dry herb.
4. Put the glass back on the unit and release the button.
5. Begin to draw on the vaporizer while holding the button for a full 10 seconds.
