Thank you for purchasing a Randy's Zipp! This is an advanced OLED display aromatherapy device with temperature control (350°F-430°F) for vaporizing herbs. The Ceramic Heating Chamber and Mouthpiece make the vaporizing process exceptional and facilitate the desired effect by baking, rather than combusting.

Combustion can instantly destroy the key elements found in various herbs and can release a multitude of undesired chemical compounds. We hope you enjoy the quality and performance of your new Zipp Vaporizer!
